

Advanced Mailboxes

Personalised email with Spam & Virus protection

The ideal email solution including Webmail, massive storage space and complete mailbox protection.

Industry-leading spam & virus filtering: customise the level of spam filtering to control the strength of the filter & protect your computer and personal details with our automatic virus scanner.

1 GB mailbox storage space: we give you enough mailbox space for you to receive years' worth of emails!

Use your own domain name: personalise your email with your own domain name (e.g. mail@yourname.co.uk).

Easy-to-use Webmail: check your email wherever you are: the perfect way to check your email on the move. Includes Calendar, Tasks and Autoresponder features.

Sending and receiving mail: send email directly from your Advanced mailbox (using SMTP) – perfect for laptop users who switch between broadband connections. Use IMAP or POP3 to retrieve your email using any email program.
